REMEDIATION &
ENFORCEMENT
RESPONSE BRANCH

Dear Wayde:

Attached for your review are 2 copies of the Site Evaluation Report ("SER") for the Beloit Corporation site. The SER is a summary of previous investigations carried out by Warzyn for the Beloit Corporation. It also contains descriptions of IEPA work done at the site as well as a significant portion of our technical file.

As noted in the Statement of Work in the Consent Decree, this document was to have been submitted 10 days after entry of the Decree. Because of all the delays in finalizing the Decree, I have decided to send you this document early so that the review can hopefully be completed by the time the Decree is signed. The objective of your review will be to provide guidance and comments as to how this data can be utilized throughout the RI. Although IEPA will not formally approve or disapprove the SER, the review of this document will play an important role in the workplan negotiations.

Please provide comments on the SER by May 24, 1991. If you have any questions or concerns about the project, do not hesitate to call.

Sincerely,

Paul E. Takacs, Project Manager
Federal Sites Management Unit
